INDEPENDENT AUDITOR'S REPORT

Board of Supervisors
Lyon Soil and Water Conservation District
Marshall, Minnesota

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and the General Fund of Lyon Soil and Water Conservation District, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise Lyon Soil and Water Conservation District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of Lyon Soil and Water Conservation District, as of December 31, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lyon Soil and Water Conservation District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lyon Soil and Water Conservation District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lyon Soil and Water Conservation District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lyon Soil and Water Conservation District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule on page 11 and the note to the required supplementary information on page 12 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information. The other information comprises the district's organizational information under the introductory section but does not include the financial statements and our auditor's report thereon. Our opinion on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 24, 2024, on our consideration of Lyon Soil and Water Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lyon Soil and Water Conservation District's internal control over financial reporting and compliance.

**LYON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Lyon Soil and Water Conservation District (the District) have been prepared in accordance with generally accepted accounting principles (GAAP) for the year ended December 31, 2023. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The significant accounting policies used by the District are discussed below.

Financial Reporting Entity

The Lyon Soil and Water Conservation District is organized under the provisions of Minnesota Statutes Chapter 103C. The District is governed by a Board of Supervisors, nominated by, and elected to four-year terms by the voters of Lyon County.

The purpose of the District is to assist land occupiers in applying practices for the conservation of soil and water resources. These practices are intended to control wind and water erosion, pollution of lakes and streams, and damage to wetlands and wildlife habitats.

As required by generally accepted accounting principles, consideration has been given to other organizations that should be included in the District's financial statements for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. There are no organizations that should be presented with the District.

Basic Financial Statements

Basic financial statements include information on the District's activities as a whole and information on the individual fund of the District. These separate presentations are reported in different columns. Each of the statements starts with a column of information based on activities of the General Fund and reconciles it to a column that reports the "governmental activities" of the District as a whole.

Measurement Focus and Basis of Accounting

The governmental activities are reported using the economic resources measurement focus and the accrual basis of accounting, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The District's net position is reported as restricted and unrestricted. The statement of activities demonstrates the degree to which the expenses of the District are offset by revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available. The District considers all revenues to be available if they are collected within 60 days after the end of the current period. Charges for services and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources, when applicable.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

**LYON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance

Cash

Cash is stated at fair value, except for non-negotiable Certificates of Deposit, which are on a cost basis, and short-term money market investments, which are stated at amortized cost.

Unearned Revenue

Unearned revenue is recorded for amounts of state and county grants received prior to satisfying all eligibility requirements imposed by the providers.

Compensated Absences

The District does not have any employees. All liabilities related to employees are assumed by Lyon County.

Fund Balance

In the fund financial statements, governmental funds report components of fund balance to provide information about fund balance availability for appropriation. Non-spendable fund balance represents amounts that are inherently non-spendable or assets that are legally or contractually required to be maintained intact. Restricted fund balance represents amounts available for appropriation but intended for a specific use and is legally restricted by outside parties (statute, grantors, bond agreements, etc.). Committed fund balance represents constraints on spending that the government imposes upon itself by a high-level formal action prior to the close of the fiscal period. Assigned fund balance represents resources intended for spending for a purpose set by the government body itself or by some person or government body delegated to exercise such authority in accordance with the policy established by the Board. Unassigned fund balance is the residual classification for the District's General Fund and includes all spendable amounts not contained in the other classifications.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the District's policy to use restricted first, then the unrestricted fund balance. When an expenditure is incurred for purposes for which committed, assigned, and unassigned fund balance amounts are available, it is the District's policy to use committed first, then assigned, and finally unassigned fund balance amounts.

Net Position

Net position represents the difference between assets and liabilities in the government-wide statement of net position. Net position is reported as restricted in the government-wide financial statements when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. Unrestricted net position is the residual classification for the Governmental Activities Fund and includes all spendable amounts not contained in the other classifications.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**LYON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Change in Accounting Principle

Effective January 1, 2023, the District adopted GASB 96, *Subscription-Based Technology Arrangements*. The new standard establishes a right of use subscription asset and a corresponding liability that amortizes over the subscription term for all arrangements with terms longer than 12 months. The District only has short-term arrangements; therefore, this new standard will not affect them.

NOTE 2 – DEPOSITS

All District funds are on deposit with Lyon County. The County serves as the fiscal agent for the District and maintains all funds in segregated accounts. Lyon County's cash and investment policies are followed. Minnesota Statutes require that all County deposits be covered by insurance, surety bond, or collateral.

NOTE 3 – CAPITAL ASSETS

As of January 1, 2014, all of the capital assets of the District were assumed by Lyon County.

NOTE 4 – UNEARNED REVENUE

Unearned revenue represents unearned advances from the Minnesota Board of Water and Soil Resources (BWSR) and from the County for administrative service grants and for the cost-share program. Revenues will be recognized when the related program expenditures are recorded. Unearned revenue for the year ended December 31, 2023, consisted of the following: BWSR Cost Share Program \$4,609; Conservation Delivery \$40,962; Conservation Contracts \$33,860; County Local Water Management \$41,308; County Wetland Funds \$33,282; County SSTS \$21,200; County Shoreland \$7,476; Buffer Law \$26,591; Water Quality and Storage Pilot Program \$99,389; Local Capacity \$76,790; Soil Health Cost Share \$14,175; Judicial Ditch \$24,477; County Feedlot \$53,135; Total \$477,254.

NOTE 5 – LONG-TERM LIABILITIES

As of January 1, 2014, all employees of the District became employees of Lyon County and all accrued liabilities related to those employees were assumed by Lyon County.

NOTE 6 – RISK MANAGEMENT

Insurance coverage necessary to manage risk is provided by Lyon County.

NOTE 7 – DEFINED BENEFIT PENSION PLAN

The District's personnel are employees of Lyon County; therefore, all PERA payments were made by the County.

NOTE 8 – OPERATING LEASES

Lyon County provides office space to the Soil and Water Conservation District at no charge.

NOTE 9 – COMMITMENTS AND CONTINGENT LIABILITIES

The District is not aware of any existing or pending lawsuits, claims or other actions in which the District is a defendant.

NOTE 1 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Each fall, the Board of Supervisors adopts an annual budget for the following year for the General Fund. Any modifications in the adopted budget can be made upon request of and approval by the Board of Supervisors. All annual appropriations lapse at fiscal year-end. Legal budgetary control is at the fund level.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

To the Board of Supervisors
Lyon Soil and Water Conservation District
Marshall, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of Lyon Soil and Water Conservation District as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the Lyon Soil and Water Conservation District's basic financial statements, and have issued our report thereon dated September 24, 2024.

In connection with our audit, nothing came to our attention that caused us to believe that the Lyon Soil and Water Conservation District failed to comply with the provisions of the contracting – bid laws, depositories of public funds and public investments, conflicts of interest, claims and disbursements, and miscellaneous provisions sections of the *Minnesota Legal Compliance Audit Guide for Other Political Subdivisions*, promulgated by the State Auditor pursuant to Minnesota Statutes §6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures; other matters may have come to our attention regarding the Lyon Soil and Water Conservation District's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

September 24, 2024

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors
Lyon Soil and Water Conservation District
Marshall, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of Lyon Soil and Water Conservation District as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the Lyon Soil and Water Conservation District's basic financial statements, and have issued our report thereon dated September 24, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lyon Soil and Water Conservation District's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Lyon Soil and Water Conservation District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Lyon Soil and Water Conservation District's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We identified a deficiency in internal control, described in the accompanying Schedule of Finding and Response as item 2023-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lyon Soil and Water Conservation District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Lyon Soil and Water Conservation District's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the internal control finding identified in our audit and described in the accompanying Schedule of Finding and Response. The Lyon Soil and Water Conservation District's response was not subjected to the other auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Peterson Company Ltd

Peterson Company Ltd
Waconia, Minnesota

September 24, 2024

**LYON SOIL AND WATER CONSERVATION DISTRICT
SCHEDULE OF FINDING AND RESPONSE
DECEMBER 31, 2023**

2023-001: Financial Statement Presentation

Criteria: The District's management is responsible for establishing and maintaining internal controls, including monitoring, and for the fair presentation of the financial statements in accordance with generally accepted accounting principles.

Condition and Context: As part of the audit, management requested us to prepare a draft of the financial statements, including the related notes to the financial statements. Management has accepted responsibility for the financial statements and reviewed them.

Cause: The District has a limited number of personnel with financial reporting experience.

Effect: The design of the controls over the financial reporting process would affect the ability of the District to report its financial data consistently with the assertions of the management in the financial statements.

Prior Year Finding: Yes, 2022-001.

Recommendation: We recommend that the District be aware of the requirements for fair presentation of the financial statements in accordance with the generally accepted accounting principles. Should the District elect, based upon an analysis of costs and benefits, to establish the full oversight of the financial statement preparation of an appropriate level, we suggest management establish effective review policies and procedures including but not limited to the following: reconciling general ledger amounts to the draft financial statements; review of all supporting documentation and explanations for journal entries proposed by us; complete the disclosure checklist; review and approval of schedules and calculations supporting the amounts included in the notes to the financial statements; apply analytic procedures to the draft financial statements; and perform other procedures considered necessary by management.

Management Response: The District understands that this is required communications for the preparation of the financial statements.
